

When a young boy vanishes without a trace from a close-knit community on the eve of an ancient solstice, rumours and whispers of black magic, ritual and witchcraft grow among the villagers.

Panic grows as more children disappear and fingers of blame point toward the woods, to the setting of a burial ground deep amongst the trees... but what will the villagers find hidden in the woods and will they reach their children in time to save them...?

Richard Knight is a journalist and novelist from The Isle of Wight; *Land Beyond the Sun* is his 5th novel.
